

## Deboning table

## Optimum workstation

The height-adjustable deboning table with easy accessible crate is the optimum workstation for one operator performing both cutting and deboning, as well as trimming.

### Hygiene

The deboning table meets the HACCP regulations:

- Removal of cutting plate during cleaning is possible
- All sections are closed
- Rollers have closed ends to prevent accumulation of dirt, etc.

### Options

The standard version of the deboning table offers the possibility of using up to nine crate for sorting of products, however it is available with additional crate holders.

### Safety and legal requirements

The deboning table is CE approved and designed in accordance with the EU and USDA regulations to meet the strictest demand on health and safety.

### Technical data
