

# FRONTMATEC

Get it all right with a single key stroke  
**GO.LineControl**

Integrates to all PLC  
or PC controlled machines

Visual process route

- Reception
- Collection
- Function test
- Packaging
- Labelling
- Packing
- Palletising
- Shipment

Automatic adjustment of processes  
in relation to the current output  
- no overfilling

Full traceability - collection of all data

Go.LineControl gives you an adaptable production and reduced changeover time.  
The system prevents manual changes and software errors.

# Achieve an efficient production with **GO.LineControl**

How do we eliminate the risk of over-production, waiting time, transportation time, stocks and defective products? Is it possible to prevent manual changes and software errors in our production?

## What do you achieve?

GO.LineControl gives you an adaptable production and reduced changeover time. The system eliminates the need for manual changes and software errors.

Data is an important source for knowledge and optimisation of the production – GO.LineControl can help you with this. In case of stop on a machine the system automatically stops the upstream equipment in the right way. The equipment can be automatically started again.

## The value you get

- Fewer errors  
Eliminate errors when it comes to changeovers. This means no customer complaints and higher food safety
- Hardware independent  
Go.LineControl functions on a wide variety of devices regardless of the local hardware
- Efficiency improvement  
Go.LineControl eliminates the risk of overproduction, waiting time, transportation time, stocks and defective products
- Allow for JIT manufacturing

# FRONTMATEC

Frontmatec develops world-leading customized solutions for automation in the food industry, other hygiene sensitive industries and the utilities industry. We are especially renowned for our high-quality systems for the entire value chain of the meat industry – from carcass grading, slaughter lines, cutting and deboning lines, hygiene systems and control systems, to logistics and packaging.
