

## PRESS RELEASE

August 24, 2020

### New Organisation Frontmatec

Frontmatec has over the last years grown to be a global business with a strong position within primary and secondary red meat processing solutions, software and service. With an extensive product range and a large global footprint, we see an increase in demand for professional suppliers like us working closely with customers to find the best solutions in order to secure processing plants can operate effectively. This requires we in Frontmatec organise our business and priorities accordingly.

To achieve this, it has been decided to increase the management group and have a stronger focus on the primary and secondary stages taking place at our customers in their red meat processing plants as well as having a stronger attention to each geographical region.

I am sad to say Henrik Andersen, our CCO has decided to resign due to the changes. But off course I respect his decision. I would like to thank Henrik for his contribution to Frontmatec over the past four years. I am pleased that Henrik will continue to support our instruments business until 2021.

The new executive management group is:

Instruments & Control Systems, R&D and China  
After Sales and Service
