

TEAMING UP WITH YOUR SERVICE SPECIALISTS

How to maintain high efficiency on your KDEL

Achieve yield improvement, a smooth and efficient operation with precise positioning of each tray by having your certified Frontmatec specialists carry out an exact alignment and calibration of the X-rail, Y-pillar and telescopic trolley.

Maintain high performance by using a skilled and experienced technician that can perform the alignment and tensioning of the timing belts together with the trolley conveyor belts, both crucial to ensure the feeding conveyor performs at its best.

Stay prepared for the unexpected by stocking critical spare parts for daily operation, such gears, motors and an extra chair.
