

## Twin Track Trolley

## Tailor your high performance

Frontmatec has developed a variety of different high quality twin track trolleys, especially made for slaughterhouses and meat processing companies.

The roller wheels are made of a high quality polyethylene with a stainless steel bearing, ensuring a prolonged life-time, as well as meeting the strict demands on health and safety in the food industry.

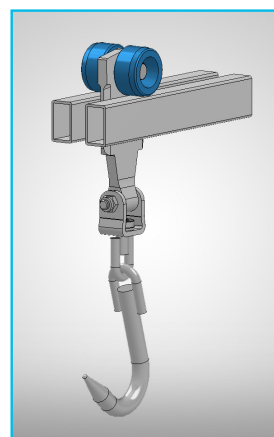

Frontmatec Twin track trolleys can be tailored to your needs, as they can be ordered with different options, such as:

- A static trolley weight up to 830 kg
- A dynamic trolley weight up to 1650 kg
- Hook bracket diameters of 16, 18, 20 & 22 mm
- Normal or swivel meat hooks\*
- RFID - keep track of individual carcasses, automatic sorting and ensure correct payment to farmers

For more information, call us today, we are here to help.

### Value for you!

- High quality - long life-time
- Low maintenance
- Tailored to your needs
- Optimal performance of equipment
- Fast return on your investment
- High level of food safety
- Easy to mount - cost savings
