## Purchaser/Supply Chain Analyst – Purchasing and optimizing stock level

*Are you a highly motivated and result orientated purchaser, with strong analytic skills, who like to take decisions based on data and statistics, and do you like to create financial results within purchasing, then we have the right job for you.*

For our Supply Chain Team in Kolding, we are looking for a Purchaser/Supply Chain Analyst, who can optimize our stock levels, reduce working capital and at the same time secure high delivery performance to our global customers.

### Main tasks

- Develop insightful stock analysis
- Optimize stock levels and reduce working capital
- Daily contact with external suppliers
- Issues and follow up on purchase orders
- Secure on time delivery of spare parts to our after-sale market
- Optimize purchasing process with focus on cost reduction
- Maintain and optimize master data
- Lead optimization projects
- Be overall responsible for our warehouse items, the stock level and service levels.

### Personal qualifications

As a person we expect that you have high analytic skills, a broad business understanding and excellent collaboration skills.

You like working with complex data, have a sense of details and urgency and work in an efficient and structured way.

You can easily adapt to change, and at the same time you come with new ideas and initiatives, not afraid of challenging the current state.

Not only are you keen on working with complex data, but you also master to draw out conclusions and implement results based on your findings.

You have a high service level, and always strive to make your customers happy.

### Professional Qualifications:

- Relevant degree in Supply Chain, Logistics, Procurement, or Finance
- Strong skills in Excel, creating own tools, reports, and models
- Experience with ERP system (Axapta)
- Excellent communication skills in Danish and English
- Minimum 3-5 years' experience with Procurement, Supply Chain Management, Performance Management.

### What we offer

A unique opportunity to join a global organization with ambitious goals and take on a highly profiled role, that give you a broad set of responsibility areas and an opportunity to grow your role in the organization. We offer flexible working hours in a good and social work setting.

### Application

You can apply for the position by sending your cover letter and CV to [dk.job@frontmatec.com](mailto:dk.job@frontmatec.com). Mark it "Purchaser/supply chain analyst".
