

SERVICE SOLUTIONS // WALKING BEAM UPGRADE

AUTOMATIC INFEEED SOLUTION FOR CONVEYOR SYSTEMS

Constant infeed without damaging the meat is the keystone to ensure a smooth operation. To achieve improved yield, you can benefit from our walking beam modification program and have installed the automatic infeed solution for conveyor systems.

Easily fitted to your exiting system, a modification of the walking beam provides you with automatic feeding of the hooks into the conveyor, and besides ensured high performance, you will achieve labor cost savings.

Maximize your up-time by stocking the most used spare parts such as air cylinder, push fingers and valves.

Service of the Walking Beam

The recommended service for maximum operation efficiency is min. 1 service a year.

Value for you!

- Optimum meat quality
- Best price for meat
- Yield improvement
- Smooth operation
- Labor cost savings
- Optimal performance of equipment
