Especially designed for the meat industry the housing consists of stainless steal with a clear display, easy and logical to use and will provide a continuous read out of weighing data.

All indicators are as standard supplied with RS232, USB and Ethernet connection to remote computer system.

Avery ZM201, type 5300000871

- Water resistant (IP66)
- Height of display 13 mm
- No plug connections - waterproof wire transits
- Continuous read out of weighing data
- Including zero setting and tare

Avery ZM301, type 5300000870

- Waterproof (IP69K)
- Height of display 20 mm
- More display options (for example filling status bar)

Avery ZM303, type 5300000873

- Waterproof (IP69K)
- Height of display 20 mm
- More display options (for example filling status bar)
- Numeric key pad and extra function keys

Avery ZM405, type 5300006686

- Waterproof (IP69K)
- Height of display 20 mm
- More display options (for example filling status bar)
- Numeric key pad and extra function keys
- Programmable
