

COMBO DUMPER

This robust equipment allows a single operator to empty bins and vats at the touch of a button. An operator can simply put a combo inside the dumper bin while it is on the ground position, secure the combo inside, and press a button to activate the dumping process.

The dumper can be connected to your own hydraulic system or Frontmatec can provide you with a separate power pack. The dumper can be designed for different height levels upon request.

The hydraulic dumper is CE approved and designed in accordance with the USDA regulations to meet the strictest health & safety demands.

Value of the Frontmatec Combo Dumper

- Smoothly empty combo bins and vats
- Easy to operate
- Designed for efficient sanitation
